

Unleash the health-giving power of 3 Miraculous Mushrooms

SUPERIOR TECHNOLOGY

Using modern fermentation technology, specific small-molecule clustered water comprising over 76 types of water-soluble trace elements are processed through magnetic fields and energy transfer, so mycelium cells are completely chelated with trace elements.

SUPERIOR IMPURITY-FREE MUSHROOMS

Completely water-soluble nutrient broths (leaving no residue) are used in the fermentation process. Also, a low-temperature freeze-drying technology is employed in order to maintain the highest activity of the products.

SUPERIOR BENEFITS ATTESTED BY SCIENTIFIC STUDIES*

- Anti-tumor activity against various allergenic and syngeneic tumors, lung cancer, prevention of oncogenesis & tumor metastasis
- Enhancer when used as an adjunct to chemotherapy
- Impeding bronchitis
- Preventing cardiovascular disease
- Improving renal (kidney) function
- Improving nephritic syndrome symptoms
- Increasing energy
- Elevating sexual function
- Anti-oxidation activity

Ingredient : (in each V-capsule)

Cordyceps (<i>Hirsutella sinensis</i> Mycelia)	250 mg
Agaricus blazei Murill	150 mg
Reishi (<i>Ganoderma lucidum</i> Mycelia)	150 mg

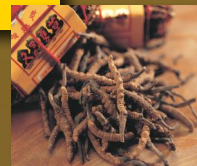

Suggested taking direction: 1-2 V-caps each time, 1-2 times/day or as directed by health care providers.

Contains no lactose, gluten, pesticide, starch or soy.
The heavy metal contents have been screened

Cordyceps

**AUTHENTIC CORDYCEPS
SINENSIS STRAIN**

冬蟲夏草

99.645% similarity in rDNA sequence alignment to the *Hirsutella sinensis* strain in the global gene database, set as the genuine asexual-phase strain of *Cordyceps sinensis* (Biochemical Systemics and Ecology. (2001) 29: 597-607)

Agaricus

**AUTHENTIC AGARICUS
BLAZEI MURILL (WADE
STRAIN 101)**

巴西蘑菇

99.286% similarity in rDNA sequence alignment to *Agaricus blazei* Murill strain, viewed as the most representative strain.

Ganoderma

**AUTHENTIC GANODERMA
LUCIDUM STRAIN! 靈芝**

99.390% similarity in rDNA sequence alignment to the *Ganoderma lucidum* strain in the global gene database.
