

# CORDYCEPS

## HIRSUTELLA SINENSIS MYCELIA

*Savour the Salubrious Benefits of the Courty Cordyceps!*

For centuries, enjoyed exclusively by the Chinese emperor and the highest officials of the royal court, Cordyceps is placed at the very top of honoured herbal compendia by ancient sages and modern scribes alike. And for good reason: This unique “hybrid” of Mother Nature, *Dong Chong Xia Cao* in Chinese (literally “Winter Caterpillar, Summer Herb”), results from a mystical trans-seasonal transformation—from animal to plant—that bestows it with almost legendary healing powers in the process. Cordyceps, it is believed, directly enhances the functions of the lungs and the kidneys, considered the very “roots of life” for all other organs depend on them for their life activity.

### SUPERIOR TECHNOLOGY

Using modern fermentation technology, specific small-molecule clustered water comprising over 76 types of water-soluble trace elements are processed through magnetic fields and energy transfer, so mycelium cells are completely chelated with trace elements.

### SUPERIOR IMPURITY-FREE MYCELIUM

Completely water-soluble nutrient broths (leaving no residue) are used in the fermentation process. Also, a low-temperature freeze-drying technology is employed in order to maintain the highest activity of the products.

### SUPERIOR BENEFITS SUGGESTED BY CLINICAL STUDIES\*

- Anti-oxidation and anti-tumor activity
- Enhancer when used as an adjunct to chemotherapy
- Ideal immunosuppressor after organ transplantation
- Preventive and therapeutic effect on leucopenia
- Preventing reject response after renal transplantation
- Protecting and improving renal and liver functions
- Stimulating hemopoietic function
- Improving hypoproteinemia and hyperlipidemia
- Reducing infection
- Relieving injury on glomerulus and tubular interstitium
- Impeding bronchitis
- Preventing cardiovascular disease
- Improving nephritic syndrome symptoms
- Improving erectile dysfunction
- Treating fertility and reproductive problems
- Increasing energy & elevating sexual function

Contains **NONE** of the followings:

- **Artificial Colouring**
- **Lactose**
- **Soy**
- **Starch**
- **Yeast**
- **Pesticides**
- **Preservatives**

600 mg / V-cap

### Authentic CORDYCEPS SINENSIS STRAIN

99.645% similarity in rDNA sequence alignment to the *Hirsutella sinensis* strain in the global gene database, set as the genuine asexual-phase strain of *Cordyceps sinensis* (*Biochemical Systemics and Ecology*. (2001) 29: 597-607).
