

Jul 31 – Aug 01, 2016

Dr. Wen's Style Modernized Acupuncture & Advanced Scalp Acupuncture Seminar

Since Dr. Wen Chung-Kai's impressive presentation at the 2013 TIMA Canada International TCM Symposium 3 years ago, we have received countless requests to invite him back. Finally, Dr. Wen is going to share his treatment and trade secrets!

Only at 2016 TIMA CITCMS and Bema Botanicals Seminars!

Dr. Wen's Style Acupuncture Highlights:

Wen's Style Modernized Acupuncture is rooted in the various schools and styles of Traditional Chinese Medicine & Acupuncture; however, it is further integrated with medical human anatomy, neuro-anatomy, physiology and pharmacology to form its principles of point selection and combinations. Through stimulation of the nerves, Wen's style acupuncture conducts the brain and commands over the rest of the body, thereby achieving analgesic, anti-inflammatory, autonomic-nervous-system-regulating and immune-regulating effects.

Wen's style acupuncture follows the principle of holistic health in TCM, where the human body is viewed as an inseparable whole. Clinically, all the organs and tissues of the body are treated and covered with his systems of scalp acupuncture, auricular acupuncture, eye acupuncture, abdomen acupuncture, trunk acupuncture, and tongue acupuncture.

Wen's Style Acupuncture is effective, safe, and easy to use!

Dr. Wen specializes in treating various difficult and complicated conditions such as neurological disorders, Myasthenia Gravis, Stroke, Parkinson's Disease, traumatic injuries...etc; Dr. Wen has garnered international recognition for treating rare and incurable diseases such as Meta-chromatic leuko-dystrophy, Rett Syndrome, Bardet-Biedl Syndrom, Cerebral Palsy, Essential Tremor, Ankylosing Spondylitis, Stevens-Johnson Syndrome, Amyotrophic Lateral Sclerosis, Macular degeneration, Sjögren's syndrome, Ocular Hypertension...etc.

Dr. Wen Chung-Kai is trained and licensed in both Western medicine and TCM. He received his Ph.D. from the Graduate Institute of Traditional Chinese Medicine of Chang Gung University.

Dr. Wen holds many prestigious roles as the board director and honored member of various TCM associations, and is an advisor to the government.

He has solely established his own clinic, which rivals major institutions as one of the largest, busiest and highest-grade personal TCM clinic in Taiwan.
